

The background of the entire page is an abstract, low-poly geometric pattern in various shades of blue, ranging from dark navy to light sky blue. The shapes are irregular polygons that overlap and create a sense of depth and movement. The pattern is most dense at the top and fades into a plain white background towards the bottom.

Online Intensive Ethical Hacking Training

Feel the heat of Security and Learn something out of the box

About the Course

This is a 7 Days Intensive Training Program on Ethical Hacking & Cyber Security. It enables you to understand Information Security from the niche and can work on this domain as career perspective. In this course, we will let you know the basics of many Web Application Security, Data Security, Software Security and many other cool stuff. You will be exposed to some programming languages and various security tools, through which you can easily find vulnerabilities on web applications and can secure your data and applications.

This training will be completely career oriented and ensures that you can upgrade your career as a Cyber Security Analyst. With this Course Module, you can be able to touch all the verticals of Cyber Security and can enhance your knowledge in any segment of security.

Course Objective

By the end of the 5 Days Intensive Training Program, you will be able to:

- Understand and Perform Information Gathering and Network Reconnaissance
- Understand Email Attacks and how you can secure yourself from the attack
- Analyse Computer Malwares and can prevent it to secure
- Understanding with basics of Programming Languages
- Can code your own Web Scripts for phishing and other attacks
- Understanding with Web Applications and their OWASP Top 10 Vulnerabilities
- Understanding Software Architecture and can Reverse It
- Understanding Memory Architecture of Application and can perform Buffer Attacks

Within these 5 Days, you will yourself see the objective of learning and enrolling in this course with the learnings and a right path for your Cyber Security Learning.

Course Content for Intensive Training

Day 1

- Understanding HTML & PHP Basics
- Developing a Demo Application
- Creating a Phishing Page
- Securing from Phishing
- Understanding Social Engineering Attacks
- Understanding Email Attacks

Day 2

- Understanding Web Architecture
- Understanding Database and MySQL
- Understanding OWASP Top 10 - 2013
- Understanding OWASP Top 10 - 2017
- Broken Authentication Attack

Day 3

- Understanding UNION Based SQL Injection
- Understanding Cross Site Scripting (XSS) Attack
- Understanding File Upload Vulnerability
- Understanding Burp Suite Tool
- Performing Brute Force Attack
- Automating Web App Auditing

Day 4

- Understanding Software Architecture
- Understanding Debuggers
- Understanding Assembly Language
- Learning Memory Architecture and Management
- Learning Registers and Flags
- Reversing an Application

Day 5

- Understanding Kali Linux
- Understanding Metasploit Tool
- Creating a Virtual Machines of Windows
- Attacking a Vulnerable Machine
- Understanding Wifi Packets and architecture
- Hacking a Wifi Hotspot

Everything Mentioned above will be covered with practical labs and theory with a ratio of 7:3 respectively. You will also be given certain labs to perform with proper authorisation.

***Note: All the Content Mentioned above will be covered under Indian IT Act 2000.**

Take Away from Intensive Training Session

- ✓ All participants will be awarded with a Certificate of Participation of 5 days Intensive Cyber Security Training after completion of Training
- ✓ All the Live Lectures will be recorded and will be shared with all of you by the end of Training
- ✓ Hitansh Kataria's Personal Security Toolkit including many other software and scripts
- ✓ 2 Hacking e-books with few Research Papers and White Papers
- ✓ Internship Opportunity for 2 Month Project with Hitansh Kataria
- ✓ Enormous Knowledge on Recent Cyber Attacks and Latest Technologies

Fee Structure for the Training

TRAINING NAME	DURATION	DELIVERY METHOD	BOOKING AMOUNT
5 DAYS ONLINE INTENSIVE SECURITY TRAINING	10 Hours (2 Hours per day)	Live Online Training viz. Video Conference	INR 1200/- Click to Book Now
